XERO Accounting System

Presented by Emma Sanford & **PKF**

Xero is an online accounting system that provides financial confidence and clarity for small to medium sized business owners and not for profit organisations. The key features of Xero are: Automatic bank account imports, GST at the click of a button, Invoicing, fixed assets, Stock support, Standard business reporting and Management reporting.

Xero also enables you and your accountant to have access to up-to-date financial information simultaneously, enabling this relationship to work as efficiently as possible.

Come along to this free workshop and find out if Xero is right for you.
